## Sky Pilots: Guardians of the Heavens

In a world shaped by valor and sacrifice, there exists a unique group of warriors. These aren't your typical soldiers; they don't wield weapons but instead carry the sacred duty of guiding souls, offering solace, and embodying the highest virtues of faith and courage. They are the Sky Pilots, the elite Chaplains of the Military Order of the Cootie.

Imagine the best of the best, the Top Gun of Chaplains. These are the Sky Pilots. They rise above the ordinary, embodying unparalleled commitment and spiritual fortitude. Their mission? To navigate the most turbulent skies, bringing light to the darkest days and hope to the most desolate hearts.

As you flip through these pages, you won't find words, but you'll see Sky Pilots training to get their basic wings and advanced training to use weaponry to resist the forces of evil. Each panel captures the essence of what it means to be a Sky Pilot.

This is more than just a comic book—it's a tribute to the ultimate custodians of faith, honor, and hope. These are the Sky Pilots: Guardians of the Heavens, Shepherds of Souls, and the true embodiment of the Military Order of the Cootie's highest ideals.

If you're already a Sky Pilot remember your **Sky Pilot Charge**:

*My Comrades pinned these wings on my chest, I've earned their confidence and will not rest, as a Cootie, "Busier than a Bee," I wear them proudly for all to see, honoring my Brothers when they fall, in joy or sorrow I'll give my all, always vigilant to spot a frown, it's my duty to turn it upside down.*

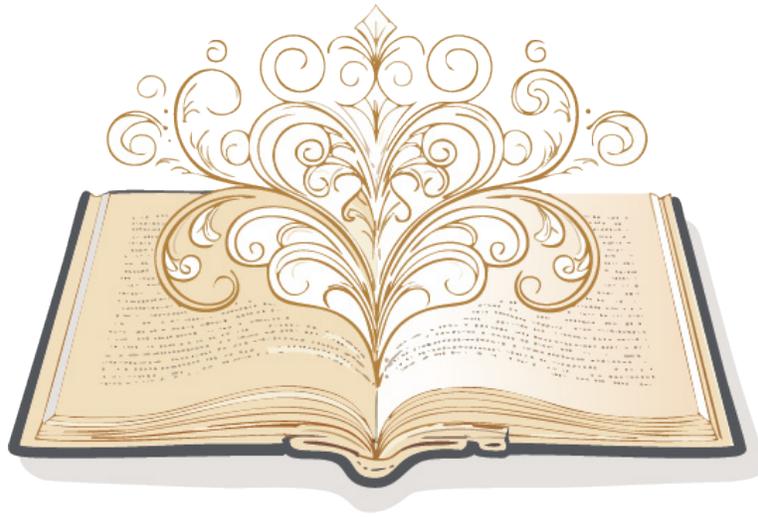

Always remember to wear your wings and that Sky Pilots never fly alone!

Yours in LOTCS,

**Dale A. Iannello B.Th., M.B.S.**
